

I strongly urge you to keep the no call list as is. We don't need to once again be bothered at our homes. If they want to contact us let them foot the bill and use the mail. It is their stamp then. I pay the phone bill. The internet is full of spam mail, unwanted faxes come over my home fax machine. I pay for my internet service and the ink for my fax machine. Let the advertisers pay for advertising. I feel we need to be protected. Please keep the no call list as is and start up one for internet spam.
